RATE SCHEDULE 500 – NEW LARGE SINGLE LOADS

AVAILABILITY: Available to any customer determined by KTU to be a New Large Single Load as defined below:

“Any load associated with a new facility, an existing facility, or an expansion of an existing facility which will result in an increase in power requirements of a customer of five average megawatts or more in any consecutive twelve month period.”

Prior to receiving service under this Schedule, the Customer will enter into a contract with KTU.

TYPE OF SERVICE: Service is three-phase, sixty Hertz alternating current.

RATES AND BILLING: KTU shall bill the customer for service over the billing period at rates and formulas defined by contract. The following rate components shall be included in the contract:

- (a) Energy and Capacity: Rates shall be based on the cost to KTU of power available to service customer’s load, or power to be acquired by KTU to serve customer’s load, plus a reasonable service fee, all in accordance with power supply arrangements agreed in writing between the customer and KTU.
- (b) Transportation and Losses: Rates to be established based on the cost-of-service methodology applicable to all customer classes.
- (c) Ancillary Services: Rates to cover load following, load shaping, firming, price stability, reactive power, risk premium, KTU overhead, reserves, and other services provided by KTU.
- (d) Customer Charges; Periodic Minimum Charges; Other Fixed Charges: A periodic fixed fee to cover non-variable or minimum costs. KTU reserves the right to collect contributions in aid of construction or other charges arising out of any required capital expansion or extraordinary costs.

TAX ADJUSTMENT: The rates charged for service under this schedule are subject to proportional increases to compensate for taxes imposed on KTU or on KTU customer electric consumption by any municipality or government body having legal jurisdiction over KTU.
